(SC Ref:800226)	
InitiationType	tender	

Tender	Id		CASE/787746	
	LegalBasis	Id		32014L0024
		Scheme		CELEX
	Title		ENFOR - Scottish Coastal LiDAR Survey	
	Status		planned	
	Classification	Scheme		CPV
		Id		71354200
		Description		Aerial mapping services
	MainProcurementCategory		services	
	Description		In support of the Scottish Government’s commitments within the Scottish National Plan 3 ( <a href="https://adaptation.scot/about/about-the-scottish-governments-national-plan-3/">https://adaptation.scot/about/about-the-scottish-governments-national-plan-3/</a> ) we are commissioning airborne LiDAR surveys of Scotland’s coastal and the intertidal area.	
	Value	Amount		750000
		Currency		GBP
Lots	0	Id		1
		Description		We require LiDAR survey of the proposed survey areas, which are detailed within the specification including LAS files, Digital Surface Models, Digital Terrain Models and associated QA assurance. The Areas of Interest defining the anticipated extent of the LiDAR. These extend over five geographical areas, as defined within the specification. We anticipate the surveys will need to be phased to coincide with appropriate local conditions. We anticipate that a 'LiDAR sensor' will be used on the contractor proposed to use Terrestrial / Marine LiDAR to deliver the outputs whilst the tide is in. We remain open to these approaches for the expansive areas, we do not intend UAV/Drone surveys to be used. The survey scope may be expanded during the contract term. Any expansion will be detailed in the specification and will remain a variation subject to internal approval. Additional information: Please note Scottish Procurement is currently considering the best route for publishing any subsequent Tender (ITT). This PIN is for market's capability and to identify the best possible routes to manage the project.
