Tender	Id	DWMP2021		
	LegalBasis	Id	32014L0025	
		Scheme	CELEX	
	Title	Drainage and Wastewater Management Plan (DWMP)		
	Status	planned		
	Classification	Scheme	CPV	
		Id	90713000	
		Description	Environmental issues consultancy services	
MainProcurementCategory	services			
Description	As part of its Drainage and Wastewater Management Plan (DWMP), United Utilities is committed to explore proposals for alternative options in either demand or capacity management for evaluation alongside those developed internally. These options will be considered in the development of our first DWMP which will cover the period from 2025 – 2050.			
Lots	0	Id	1	
		Description	<p>We are looking for proposals for alternative options in either demand or capacity management for evaluation alongside those developed internally that deliver:</p> <ol style="list-style-type: none"> 1. Improve efficiency and delivery benefits for a lower cost for customers; 2. Identify innovative market led solutions to managing long term resilience pressures for drainage and wastewater management; 3. Enhance the natural capital of the north west, providing wider benefits for customers; 4. Sustainable solutions to water quality and sewer flooding risk. <p>Through the DWMP we want to deliver a plan which demonstrate best value for customers by investigating innovative routes for delivery. We also want to hear from organisations that can offer innovation to improve our management of drainage and wastewater in catchments, aligned with our Catchment Systems Thinking approach1. We would like to consider options across the range of risks we manage, a number of examples for third party options are included below:</p> <ul style="list-style-type: none"> • Measures related to demand reduction from surface water inputs to the sewer network. Examples: surface water attenuation, SuDS, natural flood management. • Measures which involve working with partners to manage risk to water quality through interventions on
